Indlæring

Forholdsord. Bydeform af verber.

Leg: En elev sendes udenfor døren. Klassen gemmer en ting.

Klassen fremfører rytmisk talekoret, som er tegn til, at eleven udenfor døren må komme ind. Efter talekoret går man over til at synge i passende styrke alt efter, hvor tæt ved, eller hvor langt fra "tingen", eleven er. Desto nærmere tingen desto kraftigere er sangen.
